

SAF-T-LINE® Leak Detection

The Quick & Easy Way To Find Leaks!

To find a system leak, simply add the proper Saf-T-Dye™ to the system and scan the suspected area for leaks. The escaping dye will fluoresce under UV, quickly exposing the leak.

- Full line of leak detection dyes, A/C dye injectors, and accessories.
- Please see Leak Detection Brochure No. 9039-0040 for more information.
